of Medical Sciences

The beginning of the University of Kragujevac

University of Kragujevac rose from the basis of the “Licej Knjaževstva Serbskog” (Serbian Principality), the first higher education institution in modern Serbia, in 1838.

UNIVERSITY OF KRAGUJEVAC

University of Kragujevac, founded by the Republic of Serbia, is independent higher education institution, which combines education, research and art, as components of unique education process and integrates the functions of all its faculties.

Within the University of Kragujevac there are 12 faculties with the status of legal entity located in 6 cities of Central Serbia: Kragujevac, Čačak, Jagodina, Kraljevo, Užice, Vrnjačka Banja:

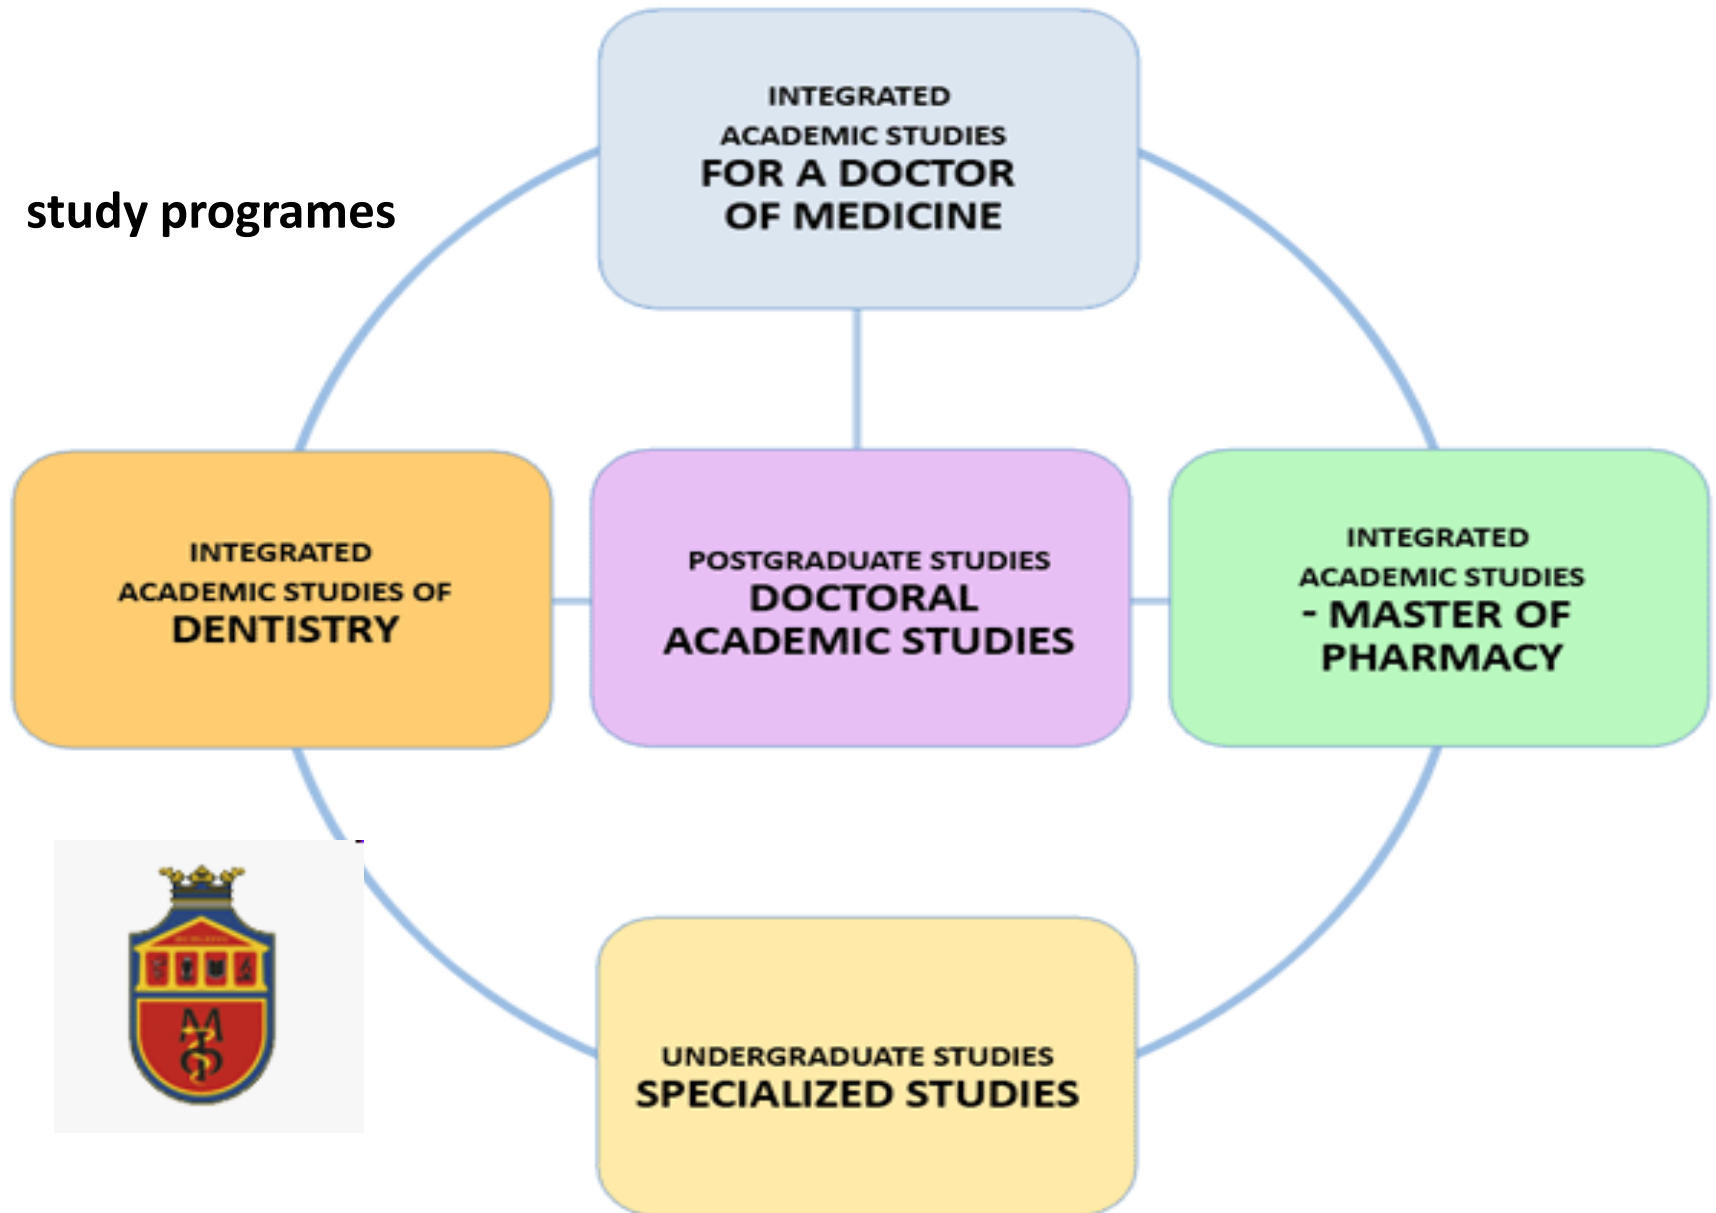

Ceremony at the opening of the Department of the Medical Faculty in Kragujevac

- A decision to open department of University of Belgrade Medical Faculty in Kragujevac was brought on November 17th, 1977.
- On May 29th, 1986. Medical Faculty in Kragujevac became independent

According to the research, from the National Council for Research and Technology Development, two faculties of the University of Kragujevac are ranked among top 10 scientific-research institutions:

- The Faculty of Science, at tenth, and
- The Faculty of Medical Sciences, at fourth place:

During the year 2016, faculty teachers published 142 papers in scientific journals on SCI list with a total impact factor of 485

We are famous..

For our doctoral academic studies

We are the first Faculty in the country that has established the doctoral academic studies.

For the international Serbian Journal of Experimental and Clinical Research

The Medical Faculty in Kragujevac is the only faculty in the country that has its own international journal.

For the scientific projects that we finance ourselves

We finance the so-called Junior projects, which is the way to help young researchers to make the first move and appear in the scientific circles

For the Section for urgent medicine

European Council for resuscitation (ERC) courses of the Basic Life Support (BLS) , Automatic External Defibrillation (AED) and Advanced Life Support (ALS)- education in CPR for the doctors on internship

- University of Kragujevac, as well as the faculties in its structure, have been coordinators or partners in almost 100 international projects within various framework programmes: Horizon2020, Erasmus+, TEMPUS (since 2001 about 40 TEMPUS projects have been realized), CEEPUS, WUSAustria, COST, SCOPES, IPAetc.

Participation in HEPMP would allow

- implementation of a program of Pain medicine in the area of postgraduate studies
- development modules of Pain medicine for undergraduate studies of medical faculty.
- Organizing of courses of Pain medicine aimed to educate doctors in primary health care
- Establishment of regional academic network for exchange of knowledge in Pain medicine
