## EVENT DESCRIPTION

### with special reference to goals and outcomes

<b>Number of participants at the event</b>	2 teachers-project participants and 26 listeners
<b>Participants (organisations)</b>	UB, UHDM
<b>Event description:</b>	
<p><b>Objective</b></p> <p>Lectures and seminars were designed within 9 semesters of undergraduate studies of students of the Faculty of Medicine, University of Belgrade, as part of the curriculum of the Desk of Surgery and Anesthesiology.</p> <p>For the past years, the Anesthesiology program for the 9th semester of student (undergraduate) teaching in the Surgery with Anesthesiology Desk at the Medical Faculty in Belgrade lasted for 3 weeks. For the first time, the Desk of Anesthesiology received an additional two weeks of space for presenting new topics in undergraduate education.</p> <p>The aim of the organization of this lectures was to raise awareness of the problem of pain with the presentation of relevant scientific facts about pain.</p> <p>Therefore, the goals of organizing and maintaining this lectures could be presented in the following way:</p> <ul style="list-style-type: none"> <li>• Raising the awareness of the medical students about the problem of pain,</li> <li>• Getting acquainted with the epidemiology of pain, through it with the significance of the problem and the need to learn about it at the Faculty of Medicine in undergraduate education,</li> <li>• Getting acquainted with the anatomical and pathophysiological basics of pain with an explanation of the way of seeing pain in medicine today,</li> <li>• Getting to know how to review patient with pain,</li> <li>• Presentation of basic therapeutic modalities, with a focus on opioid analgesic therapy in malignant and non-malignant pain,</li> <li>• Explain the concepts of opiofobia and addiction, as well as to get to know the</li> </ul>	

potential fears of doctors and patients,

- Highlighting the significance of the HEPMP project with all its goals and activities,
- The dissemination of information about HEPMP, its objectives and activities,
- Through the dissemination of HEPMP information, the call to all students to participate in HEPMP activities through participation in the project forum.

## **Description of activities**

During two days in the University Clinical Center "Dr Dragiša Mišović-Dedinje", the teaching bases of the Medical Faculty of the University of Belgrade, 4 lecturers and 1 seminar were held at December 4<sup>th</sup> and 5<sup>th</sup>, 2019, from 8.00 to 13.00. Lectures and seminars were held for students of the 9<sup>th</sup> semester of the Medical Faculty in Belgrade. A total of 26 students attended the classes.

First day, at December 4<sup>th</sup>, lectures were held by Prof. dr Vladimir Đukić, with the topics as following:

- 1. Pathophysiology of pain**
- 2. Pain assessment**
- 3. Postoperative pain**

Lecturer's work was prepared in the the form of 3 presentations, which enable listeners to get acquainted with the pain-related issues in detail. On the 111 slides in lectures, the selected aspects of the problem of pain have been processed and thus enabled the reader to gain insights into specific aspects of the pain problem in one place. All presentations were sent to students by mail in order to use them for long term learning.

At the end of the day there was a short discussion in which the lecturers and the audience were taken together.

The second day, December 5<sup>th</sup>, Prof. dr Radoslav Perunović,

presented **Seminar about pain** and one lecture - **Chronic pain treatment**, from 8.00 to 13.00. In the 45 slides of lecture and 30 slides of seminar, Prof. dr R. Perunovic, introduced students with the main objectives of pain therapy and the specifics of chronic pain management.

At the end of second day, students completed the Annex 7 HEPMP-Self-evaluation list of training for STUDENT on the 5th year BU, which was later analyzed, and the results are attached to this report.

Students were, also, invited to participate in a project forum at <http://hepmp.med.bg.ac.rs/forum/> where they were encouraged to ask questions and initiate discussions.
