What is interventional pain management ?

- **Interventional pain management or interventional pain medicine** is a super-specialty of the medical specialty pain medicine, devoted to decrease or eliminate pain with use of invasive & non invasive techniques
 - This can be accomplished in following ways:
 - Interrupting the pain signal along a neural pathway
 - Remodeling anatomical source of pain
 - Neuroaugmentation (SCS, PNS)
 - Implantable drug delivery system

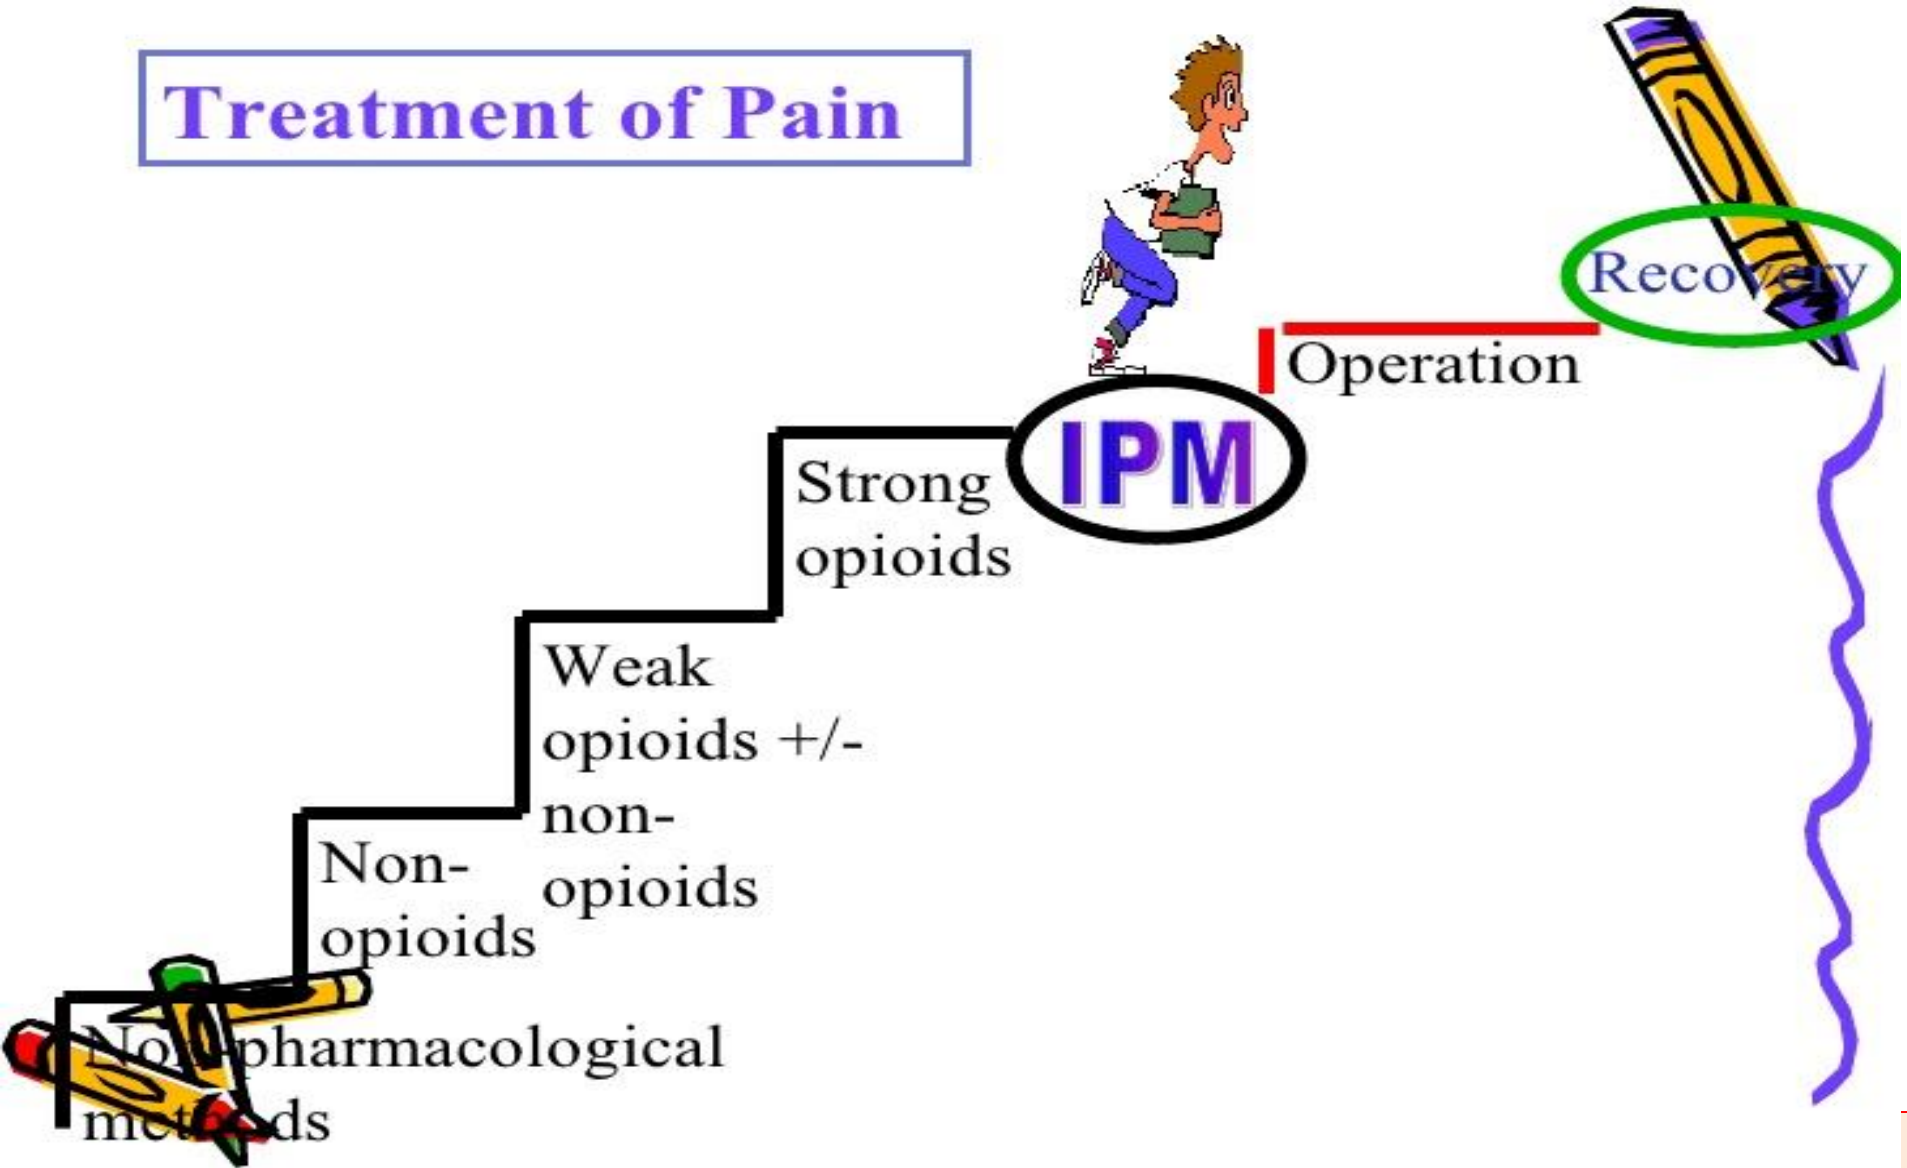

Project number: 585927-EPP-1-2017-1-RS-EPPKA2-CBHE-JP (2017 – 3109 / 001 – 001)

Trigger point injection

Project number: 585927-EPP-1-2017-1-RS-EPPKA2-CBHE-JP (2017 – 3109 / 001 – 001)

"This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein"

Deep brain stimulation

Project number: 585927-EPP-1-2017-1-RS-EPPKA2-CBHE-JP (2017 – 3109 / 001 – 001)

"This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein"

Epidural nerve block

Project number: 585927-EPP-1-2017-1-RS-EPPKA2-CBHE-JP (2017 – 3109 / 001 – 001)

"This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein"

Epidurolysis

Project number: 585927-EPP-1-2017-1-RS-EPPKA2-CBHE-JP (2017 – 3109 / 001 – 001)

"This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein"

Conclusion

Summary

- **Interventional Pain Management** are some minimally invasive procedures which gives permanent/long term pain relief.
- It fills gap between pharmacologic pain management & more invasive operative management.
- **Interventional Pain Management** may work in situations where all other options have failed.

Project number: 585927-EPP-1-2017-1-RS-EPPKA2-CBHE-JP (2017 – 3109 / 001 – 001)
